**TI PLANT**  
TO BRIGHTEN  
YOUR HOME!

**Exotic Hawaiian House Plant!**

Only recently was it discovered that the astonishing Ti (pronounced "tea") Plant of Hawaii could be used as a house plant and grown indoors in any climate in this country. The plant itself grows from a small Ti Log about 5 inches long and a little larger around than a silver dollar. Each Log has several growing eyes and will produce a lovely green plant approximately 2 feet high. The plants will last for many years and will adapt themselves to most any household condition. No more difficult to care for than ordinary house plant. Ideal for your own home or office—and of course IMAGINE the surprise and delight of your friends and relatives at Christmas time or birthdays, etc., if you were to give them one of these lovely, rare and unusual plants.

## DEAR FRIEND:

This isn't a very fancy catalog, but I feel that you folks would rather have me spend my time seeing that you get the very best bulbs, instead of spending all my time and money on an expensive colored catalog. The bulbs and other items I list in this little folder are the VERY BEST Holland Imported and home-grown stock, state inspected, free from disease and large sized as represented.

Look the folder over and send us an order. We here will pick out the best bulbs and send them to you as soon as possible.

When you get your order, I GUARANTEE that any of our stock arriving in unsatisfactory condition will, at our option, be replaced Absolutely Free or your money refunded—provided that you notify us within 10 days from arrival and accompany your claim with a signed statement from your postmaster stating full extent of loss or damage. If no complaint is made within 10 days, it is mutually agreed that stock was satisfactory.

Thanks for looking at our little folder and hurry, send us your order by mail—right away—today.

Sincerely, LUKE.
